Problem 3

The screenshot shows a code editor interface for Problem 3. The code is as follows:

```
34 if __name__ == '__main__':
35     fptr = open(os.environ['OUTPUT_PATH'], 'w')
36
37     s = input()
38
39     result = timeConversion(s)
40
41     fptr.write(result + '\n')
42
43     fptr.close()
```

Below the code editor, there are buttons for "Upload Code as File", "Test against custom input", "Run Code", and "Submit Code". The "Submit Code" button is highlighted in green.

The test results section shows a list of test cases, all of which are marked as successful (green checkmark). The details for "Test case 0" are expanded, showing the following information:

- Compiler Message: Success
- Input (stdin): 1 07:05:45PM
- Expected Output: 1 19:05:45

At the bottom of the page, there is a cookie consent banner with the text: "By clicking 'Accept All Cookies', you agree to the storing of cookies on your device to enhance site navigation, analyze site usage, and assist in our marketing efforts. For more information please view our [Privacy Policy](#) [Privacy Policy](#)." There are buttons for "Cookies Settings" and "Accept All Cookies".

Problem 4

The screenshot shows a code editor interface for Problem 4. The code is as follows:

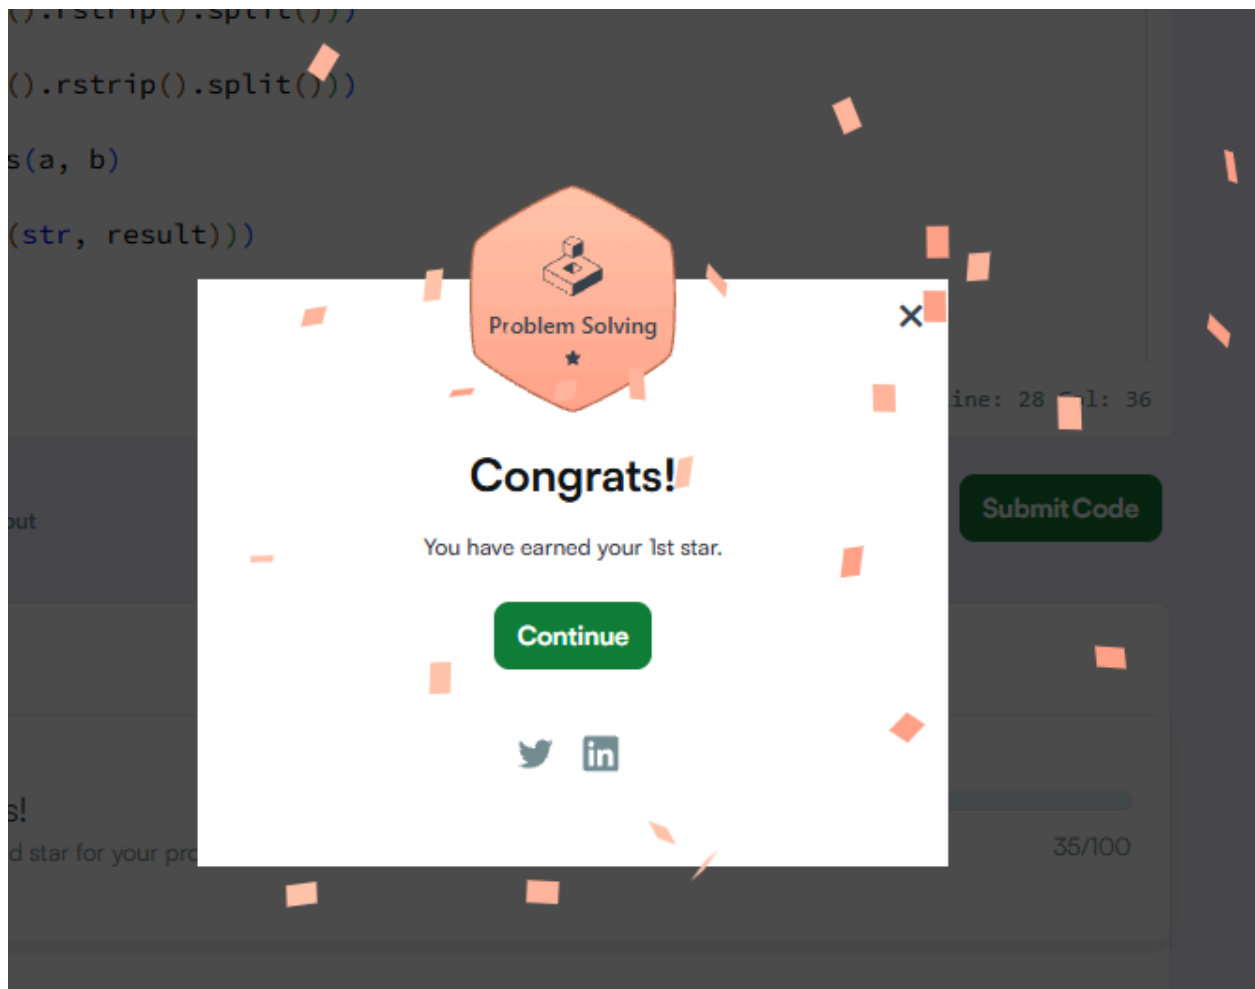

```
33
34 b = list(map(int, input().rstrip().split()))
35
36 result = compareTriplets(a, b)
37
38 fptr.write(' '.join(map(str, result)))
39 fptr.write('\n')
40
41 fptr.close()
```

Below the code editor, there are buttons for "Upload Code as File", "Test against custom input", "Run Code", and "Submit Code". The "Submit Code" button is highlighted in green.

The test results section shows a list of test cases, all of which are marked as successful (green checkmark). The details for "Test case 0" are expanded, showing the following information:

- Compiler Message: Success
- Input (stdin): 1 5 6 7, 2 3 6 10
- Expected Output: 1 1 1
